MARKET WITHDRAWAL

Olympus Duodenoscope models: JF-100, JF-1T10, JF-V10, JF-130, TJF-100, TJF-130 and TJF-140F

ATTENTION: Endoscopy Department

Dear Healthcare Professional:

Olympus America Inc. ("OAI") is announcing a market withdrawal of the Olympus duodenoscope models JF-V10, JF-1T10, JF-100, JF-130, TJF-100, TJF-130 and TJF-140F. Duodenoscopes are flexible gastrointestinal endoscopes used in procedures such as endoscopic retrograde cholangiopancreatography (ERCP). Our records indicate your facility has purchased one or more of the affected duodenoscopes models listed above.

OAI had previously announced in 1999 (JF-1T10), 2003 (JF-V10), 2007 (JF-100), 2007 (TJF-100), 2008 (JF-130), 2008 (TJF-130) and 2011 (TJF-140F) that no new repair parts and no repairs or service are available for the referenced duodenoscope models.

OAI is now announcing a market withdrawal of the duodenoscope models referenced above. OAI is offering customers the option of reimbursement for return of any one of the affected models (less reasonable allowance for use).

Please contact your local Olympus sales representative or call the Olympus Customer Service Center at (800) 848-9024 to make arrangements for return of any of the affected models in your inventory.

Sincerely,

Olympus America Inc.
